## TRASP MARKING SYSTEM

The ultimate manual wiremarking system for every size wire/cable.

04

## EVOMAX THERMAL PRINTER

High resolution print. Low maintenance. Backup support eliminates downtime.

16

## METAL DETECTABLE TAGS

Metal detectable marking for use in the food, pharmaceutical and cosmetic industries.

30

## UV TECHNOLOGY SERIES

Made of photoluminescent and phosphorescent materials to give maximum visibility in the dark.

32

## IN HOUSE MARKING SERVICE

We'll mark it for you. 48 hour turnaround. Free delivery.

34

## GRAFOPRINT MOBILE MARKING

With Sunlec's Grafoprint system, reliable mobile marking is a whole lot easier.

38

# SUNLEC CABLETIES PRODUCTS

## STAINLESS STEEL CABLE TIES & TAGS

Heavy duty stainless steel cable ties and tags to mark and secure wires, cables and pipes in a variety of environments.

Visit: [sunlec.com](http://sunlec.com)

40

## NYLON AND METAL DETECTABLE CABLE TIES

European-made nylon cable ties devoid of metal parts and suitable for even the harshest of environments. Metal detectable cable ties and bases also available.

Visit: [cableties.com.au](http://cableties.com.au)

41

# 4 Easy Steps

## For The Ultimate Wiremarking System

**Step 1** Collect the marking elements on the applicator

**Step 2** Insert elements into the sleeve

**Step 3** Slide sleeves on to wire

**Step 4** Marking elements can be added or removed as required with removal hook

**The ultimate wire marker at an ordinary price.**

## DIY Thermal Print System

The Grafoplast EVOMAX thermal print system efficiently and quickly creates high quality, durable identification tags, strips and labels for wires, cables, terminal blocks, push buttons, devices and other components.

Applying a thermal transfer marking technique using special Grafoplast UV stabilised ribbons ensures a high quality transfer of the print instantly, so markers are ready to use right away!

Save time and convert your Autocad files or copy and paste directly from any windows application into the Simplo software, Its that simple!

- Thermal transfer technology
- Quality high resolution print
- Low maintenance
- Print dries instantly
- No wastage
- Backup support eliminates downtime

## WIRE MARKERS (STANDARD)

Compatible with Grafoplast transparent sleeves.

| SI2K0006     | Replacement SI2K Thermal Head  | 1   |

\*Automatic feed plate for use in conjunction with EVO0013 stack feeder

# Metal Detectable Marking

Discover Grafoplast's metal detectable product range for the food and beverage processing, pharmaceutical and cosmetic industries. Printed on the EVOMAX thermal printer, these products are designed to satisfy international regulations and comply with the HACCP System.

The detection of foreign bodies during production and packaging phases is essential in environments where cleaning, hygiene and safety are essential requirements.

Our range of metal detectable marking products utilise a corrosion resistant, metal filler inserted into the tags, allowing them to be reliably identified by metal detectors. The blue colour of the material is designed to facilitate visual inspection by operator and/or by camera.

The raw material comprising Grafoplast's metal detectable product range is compliant with EU 10/2011 Reg.

Products available on request.

# Sunlec GRAFOPRINT Mobile Marking

With Sunlec's GRAFOPRINT system, reliable mobile marking is a whole lot easier. Completely compatible with the Grafoplast® TRASP® system, the GRAFOPRINT unit is light weight and mobile. It is extremely easy to use, and features such as the QWERTY keyboard make it practical for on the job tasks. The unit even automatically prints and cuts to your selected tag length, saving you time and money.

The GRAFOPRINT Starter Kit is a fantastic way to set up your workshop or site with instant marking capabilities, and comes with a bunch of extras such as a durable carry case and 25m of white marking tube.

## Starter Kit GP1SK Includes:

- G117 GRAFOPRINT Printer
- Carry Case
- GP33B Black Ribbon
- Tube Feeder
- Carousel for tube
- GP1W 25m White Marking Tube

**\$1,980**

## Easy to use

- Light weight and mobile
- Suitable for the workshop and out on-site
- 240V mains operated
- Automatically prints and cuts to your selected tag length
- Simple operation, anyone can use it right away
- QWERTY style keyboard allows fast data entry
- Completely compatible with the Grafoplast® TRASP® system
- Can be connected to a PC

All the above data has an approximate value and refers exclusively to the diameters of single-cores. The appreciable differences in outside diameters of similar cable sections, are the result of differences in the thickness of the insulation of the cables. When choosing a sleeve according to cable section, please also refer to specific cable manufacturers data.
